

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

**CORRECTED
FISCAL MEMORANDUM**

HB 1110 – SB 1109

April 9, 2018

SUMMARY OF ORIGINAL BILL: Requires the Department of Safety (DOS) to issue, upon request, a special designation on driver and photo identification licenses for persons with developmental disabilities.

Requires a law enforcement officer who interacts with a person who is a victim, witness, or suspect, or a person otherwise stopped by a law enforcement officer in relation to an offense or violation, and who exhibits characteristics of a developmental disability to make a good faith effort to immediately contact the person's parent, guardian, or conservator regarding the interaction. Requires, upon the request of a person diagnosed with a developmental disability or the person's conservator, that law enforcement make a good faith effort to ensure that a mental health worker, or related professional is present at all interviews with the person. Specifies that all expenses related to the attendance of the professional at interviews shall be borne by the requesting person. Specifies that failure to have a professional present at the time of the interview is not a basis for suppression of the interview or for a cause of action against the law enforcement officer or agency.

FISCAL IMPACT OF ORIGINAL BILL:

Increase State Expenditures – Exceeds \$60,000/One-Time

Other Fiscal Impact – To the extent redesign of the driver license card can be accomplished with one of two available allowances permitted by the current third party vendor contract, any impact would be not significant. Otherwise, redesign of the card will result in an additional one-time state expenditure estimated to be \$100,000.

SUMMARY OF AMENDMENT (016228): Changes the effective date from July 1, 2017, to July 1, 2019.

HB 1110 – SB 1109 (CORRECTED)

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

On March 28, 2018, a fiscal memorandum was issued for this amendment with the following estimated impact:

Unchanged from the original fiscal note.

Based on updated information provided by the DOS on April 2, the estimated fiscal impact has been corrected as follows:

(CORRECTED)

Other Fiscal Impact – To the extent redesign of the driver license card can be accomplished with one of two available allowances permitted by the current third party vendor contract, any impact would be not significant. Otherwise, redesign of the card will result in an additional one-time state expenditure estimated to be \$100,000.

Corrected assumptions for the bill as amended:

- Based on information provided by DOS, and confirmed by the third party contract vendor responsible for the driver license card system, it is estimated the cost would be one-time state expenditures of \$100,000 to redesign the driver license card to effectuate the provisions of this legislation.
- The contract with the third party vendor contains a provision that allows up to two card changes per year at no additional charge.
- The provisions of the legislation state that DOS applications are required to have an option which an applicant “can check a box” stating that they have a developmental disability and that the applicant wishes to have the disability indicated on their card; such option does not appear on current applications.
- Based on information provided by DOS, changes to both the electronic and paper applications and changes to driver license programs used by DOS to process such applications will be required to accommodate the provisions of this legislation.
- The changes related to the electronic application and the driver license program will require a one-time increase in state expenditures estimated to be the lesser of \$100,000 or the cost for standard rate and materials. The effective date change will result in printing a new batch of paper applications with no increase in state expenditures.
- The provisions of the legislation make no changes to current fees or fee requirements for conditional licenses.
- DOS indicates no additional expenditures are required to update departmental policies relative to the provisions of the legislation.
